Off Grid Electric Vehicle Solution

#SAVETHEGRID

BC Schmidt Construction, Inc.

2018 SBA Region 9

Graduated 8(a) Business of the Year Award

Sustainable Solution Benefits

- 120 kWh battery storage solution
- Dual Siemens Versicharge Level 2 J1772 chargers
- Battery warranty 8,000 cycles or 15 yrs
- Up to 480 e-mile range¹
- 11 kWh Solar Array
- Two EV chargers Power 9.6 kW²
- Footprint 10' x 20'
- Stand alone & scaleable
- Emergency power generation source up to 1.1 MegaWatts
- Retractable 20' charging cord
- No engineering, construction, or utility connections required
- Exterior lighting
- Temperature control for use in 0-120° F
- Network capability with remote monitoring and maintenance services
- Wind load 180 mph
- Rapid deployment, relocatable
- ADA Compliant
- Clean hybrid power generation
- UL Listing 9540 & 9540A

Patent Pending

*1. Range will vary based on location conditions.
2. Actual total output power dependent upon EV and charger models.*

SVEGO

Off Grid Electric Vehicle Solution

#SAVETHEGRID

About Us

A Federal Contractor that focuses on providing strategic solutions and innovative development to industry issues.

Business Strategy

- Design Build Contractor for infrastructure upgrades:
GSA Design-Build Zone D
Contract #47PL0122D0036
5 yr/\$500 Million Capacity
- Off Grid EV Charging Solution for the areas of little to no infrastructure accessibility

Services

Strategy consulting, design build, and maintenance. Cloud: mobile App, IoT cloud reporting, trending, control, alarming and billing.

Futuristic

Built modularly for future expansion potential, ability to tie into grid power, DoD Gen Set connectability, relocatable, and fully customizable.
